Description

Project of new single-family homes of exclusive design, whose objective is to offer an economically viable option within an increasingly inaccessible real estate market. The concept of the homes is born from the optimization between functionality, costs and design, resulting in 3 sizes that respond to personal and spatial needs.

It is a turnkey system where the applicant becomes the promoter of his own home and we accompany him. The entire process is previously managed and studied to guarantee quality housing and the peace of mind of our clients, like a

real estate development.

The client has access to numerous customization options to create a unique home truly adapted to their needs. 3 customizable housing sizes

They can be purchased in three sizes with the same aesthetics, quality and functionality. Depending on the needs of the future owner, there is the possibility of choosing the constructed living areas from 85m² to 115m², with two or three bedrooms and two versions of day space.

In addition, numerous finish options, types of air conditioning, self-consumption with photovoltaic panels or home control with home automation are proposed. Therefore, it gives the opportunity to configure an already designed product, adaptable to your needs and with an established price.

OPTIONAL UPGRADES

+Option 1: Window with 3 sliding panels on both sides of the living-dining-kitchen space, to give greater spatial amplitude to the home...
